

# Annual Report, 2022

Department of Law

Green University of Bangladesh

## 1. Overview of the Department

Department of Law of Green University of Bangladesh (GUB) started its journey in the year 2003. It aims to accomplish excellence in educating students, nurturing legal scholarship, serving community, and ultimately fostering justice. The Department is committed to ensuring a comprehensive learning environment both in and outside the classroom with a view to providing excellent first-hand academic knowledge and skills essential to embark on the practice of law and legal research. We offer two-degree programs i.e., Bachelor of Laws with Honours -LL B (Hons) and Master of Laws (LL M). The objective of the LL.B. (Hons.) program is to produce qualified law graduates for all job opportunities in the socio-legal fields of Bangladesh and abroad. The LL. M. program aims at offering law graduates a high-profile up-to-date curriculum focusing on research and learning in different specialized areas of domestic and international law.

It started its journey with a few enrolled students. With the passage of time, student enrollment increased substantially and at present, there are more than 300 students pursuing undergraduate and postgraduate studies. **The department has 11 full time faculties with 05 (Five) Ph.D. holders.** In Addition, **Professor Dr. Stephan Hobe, Director Institute of Air and Space Law, University of Cologne, Germany is working here as Honorary Professor.** For practical teaching-learning, lawyers and judges are employed as part-time faculty from the bar and bench of the Supreme Court and sub-ordinate Courts of Bangladesh. Most of the faculty members of the department of law have membership in Bangladesh Bar Council, different Bar Association including Supreme Court Bar Association. At present, the department has 1 Professor, 1 Associate Professor, 5 Assistant Professors, 1 senior Lecturer and 3 Lecturers.

We are proud to announce that the Law department has established **the Centre for Air and Space Law**, the country's first and only centre for research and practical education on Air and Space law. It arranged country's first and second international conferences on space law. It has signed MOU with Institute of Air and Space Law, University of Cologne, Germany.

The Dept. of Law established Moot Court Society in 2013 with a view that students may acquire practical knowledge on customary behaviors of lawyers in court-room and other associated professional ethics that is expected of a lawyer of good standing. To foster legal research, the Department established Research Cell in 2015. The Cell conducts departmental research activities and advice on research strategies, initiatives and innovation. The Cell organized different seminars, symposiums and workshops individually or in collaboration with different organizations like Mahila Parishad, Ain O Salish Kendra, and Bangladesh Women Lawyers Association etc. The Cell publishes Law Bulletin in each trimester and contributes by writing articles in Green University Review of Social Science. The department offers special aid for the preparation of Bangladesh Judicial Service, Bangladesh Bar Council and other competitive exams by arranging special classes, model tests, workshops and mock viva.

To ensure quality education, Ministry of Education with the assistance of World Bank has undertaken a Higher Education Enhancement Project (HEQEP) supervised by University Grants Commission (UGC). As per guideline of UGC for implementing Self-Assessment (SA) process, the Department of Law has already arranged a number of workshops, seminars and training programs for capacity building by inviting resource persons from different institutions. The main purpose of SA is to review the existing processes being practiced and take up strategic plans for improvement of the program. We are delighted to share that as per report of the External (Foreign) Peer Review Team, the department placed **VERY GOOD** position.

Apart from regular academic duties, Department of Law conducted numerous activities including seminars, conferences, study tours, social activities etc. We do believe that the Department of Law will establish themselves amongst the top law schools of Bangladesh very soon.

## Vision

As a leading law school of legal education and research to prepare world class legal professionals to contribute to the development of the legal system advancing human dignity, social welfare and justice through knowledge of law.

## Mission

The mission of Faculty of Law of Green University of Bangladesh is to accomplish excellence in educating students, nurturing legal scholarship, serving community and ultimately fostering justice. We are committed /strive to ensure comprehensive learning environment both in and outside classroom with view to providing excellent first-hand academic knowledge and skills essential to embark on the practice of law and legal research.

## 2. Conferences, Seminars and Workshops organized by the Department
